The voices in my head are shadows, shadows.
She comes to me to tell me what they're after
says it aint the end, boy you best be careful, careful
Might catch your tail, end in a circle, circle
the ocean how she moves in ripples, ripples
in flashing lights I swear she walk on film
and the color bleeds and she becomes an angel, angel
mmm
Calls after me like a siren to a scandral
I say, come on child.
and I say, come on child.
The blanket where she hides my virgin lies
look to the sea, where the cotton hits the turnpikes
There are out beneath (?) but I don't have the words
right, the words right now.
It fucks with me, might make a turn right, turn right.
Loss love the woman but shes still smiles, smiles
Black love arouse and the (steady?) seas for miles
says she wants, oh wants to stay a child, a child oh now
and wonders why, we ever, ever have to die
And I say, come on child.
And I say, come on child.
Just a touch I'm gonna care, care
Another time, we're upon to share the same line
The (ex and dub the?) kiss we're married, married
now.
you see the love, or just the sun in my eyes
and I say come on child
and I say come on child
Love, love love love love,
