Woke from a bad dream  
As the ground just broke away  
A hand reached towards me  
To save me for another day

Does it matter now, how I got here?  
Sunset watching, city listenin'  
Is there somewhere else to be?  
Oh, is there someone else for me?

And you like and you don't even know it  
And you take what words give onto me  
And you play, only when you control it  
And you like and you

Tied to a bed frame  
No one hears you when you scream  
Rigged up the battle  
And a little self esteem

Shall I stay here, through Hell under  
Intoxicated by the strange days  
Of fear and power, hanging over me

And you like and you don't even know it  
And you take what words give onto me  
And you play, only when you control it  
And you like and you

Crowded in the mystery of Hell  
Gotta go, see ya later  
See ya later

Shall I stay here, through Hell under  
Intoxicated by the strange days  
Of fear and power, hangin' over me

And you like and you don't even know it  
And you take what words give onto me  
And you play, only when you control it  
And you like and you

And you hide and you  
And you like and you  
And you hide and you
