My telescope looks out  
Into the stars tonight  
A little speck of light  
Seems twice the size tonight  
The calculations are so fine  
Can it be growing all the time?

Now I can't believe it's true  
And I don't know what to do  
For the hundredth time  
I check the declination

Now the fear starts to grow  
Even my computer shows  
There are no errors in the calculations

Now it's happened take no other view  
Collusion course, you must believe it's true  
Now there's nothing left that we can do

When Two Worlds collide  
The anger and the pain  
Of all those who remain  
Two Worlds collide  
Who will be left alive  
No place to hide

When Two Worlds collide  
The anger, the pain  
Of those who remain  
When Two Worlds collide  
So who will survive  
There's no place to hide  
When two worlds collide

Now it's happened take no other view  
Collusion course, you must believe it's true  
Now there's nothing left that we can do

When Two Worlds collide  
The anger, the pain  
Of all those who remain

Two Worlds collide  
Who will be left alive  
No place to hide  
There's no place to hide  
When Two Worlds collide
