(Extra extra, read all about it)
(Extra extra, read all about it)

I wanna spread news all around
(Read all about it)
About the new love that I found
(Read all about it)
I found a love that I've been looking for
Now I don't have to look no more

And it's headline news
And it's headline news
A-don't you hear me saying
(Extra extra, read all about it)
You better read about it
(Extra extra, read all about it)

The world is at my feet
There's a halo around my head
(Read all about it)
I went out searching for gold
But I found love instead
(Read all about it)
She's a wish, a dream come true
I guess you might say I struck oil too

And it's headline news
It's headline news
And everybody's saying
(Extra extra, read all about it)
You better read about it
(Extra extra, read all about it)

(Headline news)
I found my baby
And it's headline news
(Headline news)
A-don't you hear them saying
(Extra extra, read all about it)
Read about it
(Extra extra, read all about it)

In my neighborhood
They say oh what a change in me
(Read all about it)
People say when I walk by
It's not hard to see
(Read all about it)
She brings out the best in me
Lights me up like a Christmas tree

And it's headline news
It's headline news
A-don't you hear them saying
(Extra extra, read all about it)
You gonna read about it
(Extra extra, read all about it)
Read that I found my baby
(Extra extra, read all about it)
And it's headline news
(Extra extra, read all about it)
I found my baby
(Extra extra, read all about it)
