How did I wake up each day  
Before that moment I saw your face  
Where was I before your touch  
No where is where I was, without you  
Without you in it  
My life was just a lie  
Before you I don't know how I got by

Before I met you  
Before I held you in the night  
I don't know how I survived  
Before I found you  
Before you made everything right  
I was half alive  
I wasn't really living till you came into my life  
I got through baby  
But I don't know how I got by

How did I get through those nights  
Before that moment I held you tight  
And where was I before your kiss  
And how did I exist without you  
Life had no meaning  
No reason and no rhyme  
And before you I don't know how I got by

Before I met you  
Before I held you in the night  
I don't know how I survived  
Before I found you  
Before you made everything right  
I was half alive  
I wasn't really living till you came into my life  
I got through baby  
But I don't know how I got by

I thank God when I wake each day  
Awaking next to you  
Don't know what I was living for  
Before you, before you ohhhhh

Before I met you

Before I held you in the night  
I don't know how I survived  
Before I found you  
Before you made everything right  
I was half alive  
I wasn't really living till you came into my life  
I got through baby  
But I don't know how I got by

Before I met you  
I don't know how I got by
