Darkness
Darkness all around
And my senses have been stripped of sight and sound
Suddenly I came to,
A voodoo, amazed at what I saw
Struggling how to find the words
But words tend to stick right in my craw

I'm talking about siezing the moment
When the moment has gone
There's no telling me 'cos I'm holding on
Hope against hope that you've got it wrong

If you could love me
Like I love you
If you could love me
Like I love you

Frozen in time and space
Yet I feel no need to get out of this place
But suddenly the earth moved the planets grooved
I fell down on my knees
Someone pushed that take your leave
Your free go anyway you please

I'm talking about siezing the moment
When the moment has gone
There's no telling me 'cos I'm holding on
Hope against hope that you've got it wrong

If you could love me
Like I love you
If you could love me
Like I love you

I'm talking 'bout holding out
So scared to follow you

I'm talking 'bout holding out
So scared of loosing you

(Break)

If you could love me
Like I love you
If you could love me
Like I love you
If you could love me
Like I love you

Like I love you
Like I love you
'Cos I love you
