In this world of shit  
Baby you are it  
A little light that shines all over  
Must take over  
And see us through the night

Daddy was a troubled genius  
Mama was a real good egg  
Why don't we just get together  
For whatever  
And see if it's alright

I spent so many days  
Just staring at the haze  
And i think that that's a book  
That i don't have to write again

Now when i rise i shine  
I've got you on my mind  
And the question isn't if  
The question is merely when

Baby, i confess  
I am quite a mess  
So let's get married and  
Make some people  
More than equal  
In this world of shit

I will make a pledge  
To get down off the ledge  
You and i belong together  
And forever we will have  
Our love
