Yo... this ones out to my peeps

CHOURS!

just another blazin day  
this is how we do all day, everyday, chillin' round the  
way  
u no thats how we get down.  
just another blazin day  
every hood, every block, UK got it locked  
u no thats how we get down, down.

When i wake up in the morning,  
set to face another day.  
So many things to do before i get up on my way,  
cant belive the kinda things that sometimes comes are  
way.  
coz everytime u start to Blaze then people start to  
change.  
dont worrie when things go wrong,  
coz we bin were u are and weve still kept on!

HOOK!

we never thought we'd get this far!  
we never thought we'd get this far!  
and even though wer dropping hits  
wer still the same guys, at heart!

CHORUS!

just another blazin day  
this is how we do all day, everyday, chillin' round the  
way  
u no thats how we get down.  
just another blazin day  
every hood, every block, UK got it locked  
u no thats how we get down, down.

Sometimes in life i no that things dont always go your  
way,  
if you stick to who you are then i no you'll make it one  
day.  
Break the chains that hold your mind,

its time for you to come up,  
this is the time to shine.  
dont worrie when things go wrong,  
coz we bin were u are and weve still kept on!

HOOK!

we never thought we'd get this far!  
we never thought we'd get this far!  
and even though wer dropping hits

way  
u no thats how we get down.  
just another blazin day

Blazin squad,  
Hold it down,  
Double J locked tha beats man,  
we bring tha sound.
