(jamilia)

oohhh i want you

(Flava)

and this is the blazin squad,

(jamilia)

you need to make up your mind if you love me or if you
hate me,
can take this pain much longer, you make me feel just
like I
can't live without you even though I cant live with you
boy
your just like chocolate and i'm addicted to you baby.

(chorus)

i want you even though it ain't right
always argue and fight
nothing ever goes right but I want you
I want you even though it ain't right
try to tell you goodbye get you out of my life
but I want you.

(Flava)

is this just a fug affair i'm on it for real
it's the ill hits that breaks hearts and tears emotions to
bits
I just want things they were back in the day
I heard you wouldn't say a word cuz you were too shy
too speak and say how you feel
if you were quick with me I will take you deeper
then you ever been
it's my life were living it's my time were filling
broken images of our live at the minute

its just us.

(chorus)

(Jamilia)

I don't know if you love me cuz you never show me
affection
you treat me like your playmate always take my love for
granted
wish I could leave you you don't know how many times
i've tried
your no good for me but I can't get away from your love

(spike-e)

i'll let you no something for real
how do I feel when i see you across the street
it looks like we could win
just cuz it's broken it's still unique slow down take a
seat
and just listen cuz of the all the things that we've been
missing
the things in your eyes the kissing reminiscing no
longer dissing
cuz we could be together what ever the weather
the chance of me by your side and that's for life

(chorus)

(kenzie)

I love you from day but manz gettin in the way
had to keep them obey
she's not right for you that's what they used to say
I used to take it all in think about it wen I lay in bed
at ma home people would moan groan just leave me
alone
let me do my own thing let me step into the zone
were it got to the point I had to switch off my phone
people ringing me up asking me what's going on but I
want you

(strider)

i'll ring you girl you no when even they right
we used to argue and fight at the end of the the sun
there was like your always shouting screaming
when the smash hits fo was ripping tell me why your
tripping
cuz it's my mind that your flipping listen

(jamilia)

i'm confused like you dont know what I should do
I wanna stay ain't gonna stop and start I just can't stop

(strider)

don't see you but I feel you try to say goodbye
I need you understand I want you

(chorus)

(jamilia)

yeh yeh I want you yes I do I want you can't tell you
goodbye can't tell you
goodbye I want you I want you (fade)
