"I Want You"

Visit "[I Want You](#)" on MotoLyrics.com

This is jamilia oohhh iwant you and this is the blazin
squad,
You need to make up your mind if you love me or if you
hate me,
Can take this pain much longer, you make me feel just
like i
Cant live without you even though i can't live with you
boy
Your just like chocolate and im addicted to you baby.

Chorus

I want you even though it aint right
Always argue and fight
Nothing evers goes right but i want you
I want you even though it aint right
Try to tell you goodbye get you out of my life
But i want you.

Is this just a fug affair im on it for real
Its the I'll hits that breaks hearts and tears emotions to
bits
I just want things they were back in the day
I heard you wouldn't say a word 'cause you were too
shy
Too speak and say how you feel
If you were quick with me i will take you deeper
Then you ever been
Its my life were living it's my time were filling
Broken images of our live at the minute
Its just us.

Chorus

I don't know if you love me 'cause you never show me
affection
You treat me like your playmate always take my love
for granted
Wish i could leave you you don't know how many times
ive tried
Your no good for me but i can't get away from your
love

Ill let you no something for real
How do i feel when i see you across the street
It looks like we could win
Just 'cause it's broken it's still unique slow down take a
seat
And just listen 'cause of the all the tings that weve bin
missing
The tings in your eyes the kissing reminiscing no
longer dissing
'cause we could be together wat ever the weather
The chance of me by your side and that's for life

Chorus

I love you from day but manz gettin in the way
Had to keep them obey
Shes not right for you that's wat they used to say
I used to take it all in think about it wen i lay in bed
At ma home people would moan groan just leave me
alone
Let me do my own thing let me step into the zone
Were it got to the point i had to switch off my fone
People ringing me up asking me wats going on but i
wont

Ill ring you girl you no wen even they right
We used to argue and fight at the end of the the sun
There was like your always shouting screaming
Wen the smash hits fo was ripping tell me why your
tripping
'cause it's my mind that your flipping listen

Im confused like you don't know wat i should do
I wanna stay aint gonna stop and start i just can't stop
Don't see you but i feel you try to say goodbye
I need you understand i want you

Chorus

Ye yeh i want you yes i do i want you can't tell you
goodbye can't tell you
Goodbye iwant you i want you (fade)
