I see a long wait. I see a long wait ahead,
I permanently shiver in that long wait.
Her long black lashes the long black lashes I feel she
won't
Move I said? And I am the knife in your chest
Chorus
She moves again 4X
Her fingers are fucking me quiet
Black, Black, Black Lashes
I see a long painful memory. Her lashes are falling
like avalanches of knives, slicing my eyes,
her delicate thighs move with mine in the secret dark,
a secret heart.
I see a long, long, wait..
And who are you hiding from, and who are you hiding
from
it's the girl with the long, black lashes.
Chorus
