We never had the chance to connect
We never had the time
You never had the time
You tell my your stuck up
With something more important
But I find time for you
You tell me that you love me to
But how could I believe it's true
When someone finds you backstage
With a lot of girls
You wear around your neck
This is so effin stupid
I, still believed your lies
don't think cause your famous I will cry...

And now I'm happy that I'm free I'm just going with the
flow
You leave me no choice you know
This hurts me more than to let go
You left me with aphasia
You left me with aphasia
You left me with aphasia

And now I'm happy that I'm free
I wonder what your life will be like
Will you see past the skin
And grasp whatever that's within

I'll grab you by your collar~!
I'll grab you by your collar~!
Get a whiff of reality cause if you don't!
I'll grab you by your collar
I'll grab you by your collar
Get a whiff of reality my boy...
Reality... my... boy...
