Kenzie:

Superstar, superstar,superstar,
Superstar, Lets blaze it.
You're my superstar, i'm your number
One fan by far, rollin in my blacked out car,
Tinted windows dropped made eye contact,
As a matter of fact, I see you're body
And it made an impact on mine, come ride
With me, it's 6 o'clock, come chill on the block
We go cruising, find a place to stop, I think
About you non-stop, So i'm taking this time
Just to be with you.

Flava:

6 O'clock i never stop until I find what
I want a fly chick what i want, I rock drive
Through the block, it doesn't take long cause
I'm right in the spot, I've never seen a girl
Like this but she's hot, tanned skin long legs
Right to the top, now i'm with a chick in the whip
And says stop, come on lets go staright to the
Club.

Melo-d:

Come on girl let me be your Supastar,
We can ride all day, roof down in the car,
Then stop off and get a cold drink at the bar,
Coz u look so fine and you shine like a star,
You had a short white skirt and your top cur low,
Smooth skin and the wind would make your
Hair blow, girl your flow was so tight i just
Couldn't say no, I said jump in the ride buckle
Up and let's go.

Chorus:

Supastar, face from a movie screen,
Supastar, like the cover of a magazine,
No matter what you do, you'll always be my

Supastar, Supastar, i'm your number one
Fan by far , Supastar

Krazy:

You know girl you're my supastar, and i'm
Your number one fan by far, you remind me
Of a face from a movie screen, I think i've
Seen you on a cover of a magazine, wait,
Hold up, was that all a dream, no that's the film
That i've seen, I wanna touch i wanna tease i
Wanna i wanna hold i wanna please ya, and i
Really wanna see you again.

Strider:

You're my supastar girl i see your name in I
Lights, me and you will reach amazing heights,
You're on the front cover of a new magazine,
Then i see your face on a movie screen, I like
Everything about ya, your body your eyes, girl
You're more precious than a golden prize,
Everytime i see ya i'm hypnotised, i'm your
Number one fan you best realise.

Platnum b:

Jammin in a whip about midday, in need of a
Chick coz i just got played, then i clocked dis
Chick walking straight my way, a supastar chick
Just like Beyonce, she was carrying Gucci and
Prada bags, so then i thought to myself let me
Help her out, pulled over do you want a ride,
The answer was yhes how could she deny.

Repeat Chorus

Krazy:

Mon cherie, don't you worry about a thing,
Whether you fail or succeed, I want you to
Know, you'll always be my.

Repeat Chorus x2
