Blaze up-up-up
Blaze up-up-up
In the sunshine
In the sunshine
Let's blaze it up in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes, had a dream for a minute
The place I had dreamt had us all in it
Hittin' girls up two at a time
And we'll be livin in the sunshine
This girl was lookin' at me
She had long brown hair, about 6'3"
Girl, you're too tall for me
So baby, go try your luck with Kenzie
Sippin' on gin and juice in the shade
Girls by my side 'cause I just got paid
I got a right to blaze it, crumbs by the caseload
Eatin' strawberries off of her navel
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Let me tell you 'bout a dream of mine
We were all laid back in the sunshine
We dreamin', girls just be screamin'
I don't think it's my time to leave and
I ain't comin' down for days
I'm feelin' so good in so many ways
Feelin' so crazy
Chillin' with the beautiful ladies
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again

We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Yo', me and the boys are here, what you know about us
How we roll in the summer, how we blaze burnin' it up
Runnin' the beats, sun in the streets, winnin' the
cup, lovin' the heat
Comin' from me, wheels pickin' me up
It's the holidays, girls in the park, it's a lovely
day
Baby mamas chillin' with they friends, watch their
babies play
Far summers flash back like they were yesterday
Better days, ??? chill, blaze the day away
Summertimes, hot girls, there's a lot a lot to blaze
In these days of summer, if you're a burner it's
funner
'Cause you will sit there and wonder, sittin' under
sun
All the girls and boys come together as one
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
Close my eyes and I'm there again
We got girls, weed, smoke in the air again
We dreamin', we just be dreamin'
And I be livin' in the sunshine
