Breathing contained in your forsaken pit  
Now you're freezing from scaling these walls you  
create  
Whipping the chains on my forsaken back  
Spinning your web in this blood-soaked attack  
Pummeling forces, now I can't deny you  
Electrical current's denying my chance to escape

Unbeatable force to destroy  
Demoralization deployed

I enslave you  
(Victimized)  
I engage you  
(Traumatized)  
I engulf you  
(Dehumanized)  
I enrage you  
(Mortified)

Retention formed, I suspend in your grip  
From your retched disease I attempt my escape  
Infrared vision, eyes pierce in the darkness  
Escape is illusive, my mind now astray  
Wallow in darkness, my screams are unheard  
As I scratch to the surface your chains now en-claw on  
my neck

Unbeatable force to destroy  
Demoralization deployed

Unbeatable force to destroy  
Demoralization deployed

Choking suspended, now grasping for breath  
Grasping the chains for an uncertain death  
Eye-blinding light now appears from above  
Resisting pain as I focus for ways to escape  
(You shall)

Within these walls contained, I focus to escape  
Electric forces felt, avoided from the chains

Ripped into the air, closer to your vile  
Hidden razor punctures the sickening flesh that holds  
my last escape

Unbeatable force to destroy  
Demoralization deployed

I enslave you  
(Victimized)  
I engage you  
(Traumatized)  
I engulf you  
(Dehumanized)  
I enrage you  
(Mortified)
