Scars of significance - to those who bear witness  
the symbol of salvation - for all of those to see  
the chosen ones - who seek glory through pain  
shall journey through - the path of never ending fear  
though many - never to be seen again  
the righteous few - inherit the legions fate

The lords of desecration

Demoralizing - the weak through deprivation  
strength through suffering - from lords of aeons past  
outcasts of society - in numbers they are growing  
illumination - they leave their world behind  
branded by steel - for the scars - they shall kneel  
emanation through darkness - now see through sewn  
shut  
eyes

The lord's of desecration  
a new life is revealed

Concealing evidence - for those who may return  
this way of life - never to be learned  
a way of judgment - for they don't understand  
incomprehensible - society incapable  
for those who seek the power - there is no other way  
eternal glory - through powers of redemption

The lord's of desecration  
a new life is revealed
