"The World Inside My Bedroom"

I gotta pull the plug out
And to be alone
This melody in my sky
Tonight will only be mine
Me alone with my mind
It's raining and it's boring (?)
And it's drowning all the town
Tonight I'll hide in my bed
Or I can get myself wet
(...) like this forever

The world inside my bedroom
Walls made of fantasy
Make me feel alright in my bedroom
Playing this melody

I think of what I'm doing
And I wonder where I'm going
The caress in my visions (?)
That troubles my decisions
Is blocking any conclusions
So I long to feel the night
'Cause the darkness turns on light
On me and on my feelings
On the (...) that I'm regretting
While I'm failing and neglecting

The world inside my bedroom
Walls made of fantasy that
Make me feel alright in my bedroom
Playing this melody all night

The world inside my bedroom
Walls made of fantasy
Make me feel alright in my bedroom
This is where I can feel the light
