"Losing You"

Visit "[Losing You](#)" on MotoLyrics.com

Can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you
And I just

And I don't care
What I'm missing is you, you

Can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get

I just can't get over losing you
And I just

I lost the count now of how many letters
I've wrote from here
And I lost the count now of how many days
I've been away from home

And I remember the time that you asked me
What was right or wrong
And I don't care
What I'm missing is you, you

Can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you
And I just

I lost the count now of how many letters
I've wrote from here
And I lost the count now of how many days
I've been away from home

And I remember the time that you asked me
What was right or wrong

And I don't care
What I'm missing is you, you

Can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you

And I just can't get over losing you
And so I'm tired
I just can't get over losing you
And so I can't get over losing you

I just can't get
Can't get over losing you
Can't get
I just can't get over losing you
And I just
