Suddenly it's Friday night  
Answering the question why we're here tonight  
We're the band that's going to rock and roll the crowd  
So can you tell me how to get to the stage in town?  
We're the poster "live on stage"  
We gotta hurry up it's absolutely late  
Can I take this picture with you?  
But just in case I would rather take two.  
And then straight on to the hotel  
See you here at 10 o'clock down in the hall  
take a rest in a while we gotta go  
Cause tonight think on another show  
It's time get ready to play  
No matter how we try in the end we're always late  
20 minutes on the clock  
But we'll give it all that we've got

On a stage all across the world  
And another concert begins  
Soon they'll tell us it's time so let's go  
People applauding  
Jumping at the dance and roll show

And we'll have a great time while we're riding  
On the highway and overseas  
There is someone at home that's waiting  
For you to come back  
After the publicity

So it can't be over now  
Look at all the people that are getting down  
There's a lady that is waving a CD  
Can you sign it for my daughter?  
She's your big fan  
And what a hostile backstage  
We've gotta change cause we have a minute free  
Just a question for Radio  
Could you smile for our local TV?  
Finally we can sit for a bite  
Go for the lasagna that is always right  
And there's someone who doesn't know why  
We decided for Eiffel 65

I'm uncertain where do we go?  
There's a club where there's another show

Where a DJ plays tonight  
And we'll dance to his morning light

On a stage all across the world  
And another concert begins  
Soon they'll tell us its time so let's go  
People applauding  
Jumping at the dance and roll show

And we'll have a great time while we're riding  
On the highway and overseas  
There is someone at home that's waiting  
For you to come back  
After the publicity

(Instrumental)

On a stage all across the world  
And another concert begins  
Soon they'll tell us its time so let's go  
People applauding  
Jumping at the dance and roll show

And we'll have a great time while we're riding  
On the highway and overseas  
There is someone at home that's waiting  
For you to come back  
After the publicity

On a stage all across the world  
And another concert begins  
Soon they'll tell us its time so let's go  
People applauding  
Jumping at the dance and roll show

And we'll have a great time while we're riding  
On the highway and overseas  
There is someone at home that's waiting  
For you to come back  
After the publicity
