

Eiffel 65

"Warm"

Visit "[Warm](#)" on MotoLyrics.com

He loves you he said when he was last around
Something about the nails in his hands
Said that's all I need to keep cold and warm

I'd like to believe all is good and well
Something about the nails in his hands
Said that's all I need to keep cold and warm

It's over now, hold yourself down
He saved your life, you've got to believe
It's over now, It's over

When you hold to my life
I pick up the pieces
When you move in my time
I will bring you releases

You said it's all I need, to keep cold and warm
You said it's all I've shown you
Hey, said it's all I need, to keep cold and warm
