Happy endings lie
Waste away your life
What are morals when you're famed?
And now the curse is gone
Peace came with a gun
Another leader in the grave

If legends don't end then why are they dead?
I don't understand someone please tell me why

Starting a trend, legends don't end
Now they can rest in there grave

Mind games put us all
In life's crystal ball
Civil efforts to shatter
Freedom paid its price
10 seconds claimed a life
All that joy drowned in sorrows
