You swear you're right, well then prove what you said
If knowledge is power, well what's in your head?
Stop hearing whatever you want 'cause the world's not
your playground
Read the other side of the story, confusion is that what
you found?

Can't you admit that you're not always right?
Establish the meaning of truth

You messed up
Now you're stuck
Don't you feel incompetent?
You misjudged
Held a grudge
Don't you feel incompetent?

You think you're right
I've got the evidence proving that you're wrong [x2]

You messed up
Now you're stuck
Don't you feel incompetent?
You misjudged
Held a grudge
Don't you feel incompetent? [x2]
