Here is my part
In this play
They sleep in the fire
Here in the dark
Till the lights go out

Treat me
With contempt
Push me aside then
Leave me
No self-respect
Already wrecked

Will you walk by
Like the rest
I'm in the shade, still
You talk like
It's all that's left of me

Because that's all that
I am to you now
That's all that I am
Because that's all that
I am to you all now
That's all

So consent
To this part
Take it all - you've got to accept this
Content
With this part
- All that you are left with

You tell them who I am
Though you don't know me
So tell them all you can
But you don't know me

Because that's all that
I am to you now
That's all that I am

Because that's all that
All that I am to you all now
That's all

Sometimes...
Sometimesâ€¦
Sometimes I cry in my world
For I'm not much
But it's my own ground
And my heart is hurt
But sometimes I make
No sound coz

That's all that
I am to you
That's all that I am
Because that's all that
All that I am to you
That's all
