They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot
Get low, get low, get low, get low

They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot

What's the worse *** heard
A shotgun blast from the back a ya head
*** don't know who got hit
But I know for sho' somebody dead

All I hear is people scream in the background
Everybody in the club down on tha flo'
Everybody in the VIP was
Runnin' over heat tokin' from the back door

I don't see MJG nowhere
Gunshots still pop in the mayhem
I'mma reach for the heat that I snuck in
Hope my shots don't hit the innocent

Seems like we done been here a long time
But it's only been about 5 minutes
Shoulda stayed my *** at home
It's too late now I'm already in it

What's the worse *** seen
Blood on the floor, blood on the wall
People gettin' hit didn't do nothing
Baby don't know, mamma ain't comin' home

And I don't know what started it all
Over some bread, over some brawl
A *** done went too far
Now you gotta run and deal wit the law

And I don't wanna do nuthin' but get home
I don't wanna see nuthin' but the freeway
I don't wanna have to pop this *** ***

But I will if it mean I'mma get away

Pull back let it all go

Run outside, jump in the vee-hic

Burn off doin' eighty four

*** wanna get me, boy betta be quick

Get low, get low, get low, get low

They fight, they fight, they fight, they fight

Get low, get low, get low, get low

They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low

They fight, they fight, they fight, they fight

Get low, get low, get low, get low

They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low

They fight, they fight, they fight, they fight

Get low, get low, get low, get low

They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low

They fight, they fight, they fight, they fight

Get low, get low, get low, get low

They shoot, they shoot, they shoot, they shoot

Witnesses runnin', talkin' 'bout the shootas is comin'

[Incomprehensible] get low

*** comin' out the [Incomprehensible]

That make me wonder how they got it through the front door

Security beatin' the hell outta some of the instigates

Who started the *** raucous in the first place

And there ain't even no way I could sugar coat it

As bad is I want the *** to be over and be the worse case

How a *** tryin' to get out from the middle of a situation

When the situation gonna been down

I'm tryin' to make it to my Chevy, I don't give a *** about

The bitches or the little money I'mma spend now

MJG [Incomprehensible]

[Incomprehensible]

I'm just tryna get up out the club like

So don't be stickin' yo 'hand up to me talkin' 'bout you hurtin'

You a veteran now hit me wit a dub spot

And ain't no way I'm tryna get hit wit a stray bullet
But no matta what chu say *** they pull it
[Incomprehensible]
[Incomprehensible]
You don't know, you better mother*** stay with it

A *** who on a mission to get me and everybody
Who came wit me back to mutha*** safety
And don't nobody but me and a couple *** who kill
*** for real really don't wanna hurt me

Hit the ignition on the Chevy Impala
To keep the lookout for me I just cut the music on the
lo-lo
I got my hand on the *** ***
Tellin' my people to get down, help me look out for the
po-po

Put it in drive, hit the accelerator [there's no more wait]
Gotta get *** wippin' while I'm dippin' now
Anotha episode of *** tryna get out the club
Because anotha mutha*** *** trippin' now

You'll better get low, get low, get low, get low
They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low
They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low
They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot

Get low, get low, get low, get low
They fight, they fight, they fight, they fight
Get low, get low, get low, get low
They shoot, they shoot, they shoot, they shoot
