Let me be the one to breath
Let me be the one to breath

I bathed in mud to wash away the dirt
Blaming you for all that hurt
I let you down and soaked up the lies
But you're the one that opened my eyes

I let it go and dropped to my knees
For your forgiveness I'm begging you please
'Cos I broke down and soaked up the lies
You're still the one that opened my eyes

Let me be the one to breath
Let me be the one to breath
Let me be the one to breath

How did you find me when I was laying so low
I've been hiding, I've been breeding
What do you want from me without pleading, disgust,
disgrace
You'll slap that look right off of my face

I'll play God, I'll play dead
You'll be the one to shoot me in the head
And I'm waiting and I'm wanting
Still hating, still haunting

Disbelief and denial you're the one that put me on trial
And I'll try and find out why all these things leave me in
doubt
But this time I'm wrong
This time I'm wrong, this time I'm wrong

Let it go, let it out and I'll find you
Let it go, let it out and I'll touch you
Let it go, let it out and I'll see you
Let it go, let it out and I'll trust you

Let it go, let it out and I'll find you
Let it go, let it out and I'll touch you
Let it go, let it out and I'll see you

Let it go, let it out and I'll trust you

I've been wanting, I've been craving
All these thoughts are real and I'm shaking
So cover me in this dirt
And bury me with all that's hurt

What luck have I found?
My head spins round and round
I found the feel, I found the flow
I found what I've been looking for

I've been wanting, I've been craving
All these thoughts are real and I'm shaking
So cover me in this dirt
And bury me with all that's hurt
