"I Should Tell You..."

I watched the falling rain splash upon your face.
I know those aren't your tears.

You know it's me and where I've been.
It's just circumstances.
Don't let her down.

So I should tell you why it's so hard to tell you.
You know it's me and where I've been and the million
words I'm thinking.
I burned my time today as I start to waste.
You were my one and only and now I don't know why.

You know it's me and where I've been.
It's just the circumstances.
Don't let her down.
You know it's me and where I've been.
It's just the circumstances.
Don't let her down.

And I know what you're feeling tonight.
And I know soon everything will be fine.
And I know what you're feeling tonight.
And I know for now you're mine.
For now you're mine.
For now you're mine.
For now you're mine.

I watched the falling rain splash upon your face.
I know those aren't your tears.

You know it's me and where I've been.
It's just the circumstances.
Don't let her down
