"Lost In A Dream"

I've been sleeping here for days
Hope I die before my dreams drive me insane
When you're not around I might let my guard down
Don't keep me waiting
You can't understand my nightmares
Bad dreams are all that I can keep
Locked in a room where all my dreams come true
Scrape my mind off the walls painted pretty blue
Collective thoughts fill my brain
But every night it's just the same
Don't keep me waiting
You can't understand my nightmares
Bad dreams are all that I can keep
You can't understand my nightmares
Don't you close your eyes to see
(Blindness is overwhelming)
You can't understand my nightmares
Bad dreams are all that I can keep
You can't understand my nightmares
Don't you close your eyes to see
(Blindness is overwhelming)
