Go!

I love the way you feel.

Your touch is o-so real.

Your wore pleasure and dress yourself and bath with in
my sin.

And the sun falls down.

I know I can't do this over and over again.

I know I can't do this over and over again.

I know it's hard to tell.

Far from the day I fell.

So close to dance so cold and I can't see your plan.

And the sun falls down.

I know I can't do this over and over again.

I know I can't do this over and over again.

And I forget, and I forget.

Your last breath.

And I regret, and I regret.

Our sweetest trip.

Man the sun falls down.

I know I can't do this over and over again.

I know I can't do this over and over again.

And the sun falls down.

And the sun falls down.

And I forget, and I forget.

Your last breath.

And I regret, and I regret.

Our sweetest trip.

And I forget, and I forget.

Your last breath.

And I regret, and I regret.

Our sweetest trip.
