(Mark Tanner/Esther Terry)

Just when I thought I was falling
You put the brakes on me
I thought I'd heard your voice calling
Didn't want to see you were

Just messing around
Had my heart in your hand
Heart in your hand
Like playing with fire
Staring into the flame
Burning out of control

If you want me
If you need me
I'll do anything at all
Something tells me
You're the one and only
I'll come anytime you call
As a matter of fact
Oh I'll do anything at all

Just when I thought
You were my love
You said it wasn't so
Somehow our wires got crossed love
Was it all a show
You were

Just hanging around
With my heart in your hand
Heart in your hand
Feeding my desire
It's a fever that climbs
Out of control

If you want me
If you need me
I'll do anything at all
Time goes slowly

Please don't leave me lonely
I'll come anytime you call
As a matter of fact
Oh I'll do anything at all
Oh anything at all

Hard to be
On a one way street
When my back's up against the wall
You gotta hear what I say
I don't wanna play
Just a fool on a string
And do anything at all

Just fooling around
Got my heart in your hand
Heart in your hand
Like playing with fire
Staring into the flame
Burning out of control

If you want me
If you need me
I'll do anything at all
Something tells me
You're the one and only
I'll come anytime you call

Stay together oh forever
Baby catch you when you fall
I can love you
Anyway you want to
Flowing like a waterfall
As a matter of fact
Oh I'll do anything at all
Anything
I'll do anything at all
Anything
I'll do anything at all
Anything
Oh anything at all
