Sprawled and bound, swift amputation awaits  
Administering incisions to skin and decapitate  
Repetitive lateral laceration, cranial excavation  
Mincing and chopping the severed slabs  
Suspended and quartered  
Reeking of stagnant cryptic stench  
Gruesome limbs dis-articulate  
While the carcass leaks and pulsates  
Sawing through cartilage  
Detaching ligaments  
Surgically butchered  
Slowly torn to pieces  
Pungent Post mortal malodor elevates  
Choking back the urge to retch  
Gruesome limbs dis-articulate  
While the carcass leaks and pulsates  
A Sickening hunger erupts within  
An uncontrollable impulse to ingurgitate emerges  
Extracting human delicacy  
As teeth sink in to devour the flesh  
Voracious Mastication, dermal consumption  
Suspended and quartered  
Reeking of stagnant cryptic stench  
Gruesome limbs disarticulate  
While the carcass leaks and pulsates  
Pungent Post mortal malodor elevates  
Choking back the urge to retch  
Gruesome limbs disarticulate  
While the carcass leaks and pulsates  
Gnawing osseous matter  
Swallowing spoiled remains  
Limbs shredded and scattered  
Organs digested  
Gorging putrid chunks of foul human meat  
Purging partially digested portions  
Explosive esophageal discharge spewed  
Remnants reguritated
