When you're deep inside my heart  
All the pain and hurt disappears  
This tender moment  
Makes it feel all so real  
When will you realize  
This tender love will be forever  
I just can't forget all the loving  
We were meant to stay together

Chorus:

Touch me with your heart  
Never fall apart  
Don't you know that my love will always be true  
Baby, can't you see  
What you do to me  
No one ever touched me the way that you do

Maybe, baby  
This time around you will see  
My burning passion  
That's hidden inside of me  
When will you realize  
This tender love will be forever  
I just can't forget all the loving  
We were meant to stay together

Touch me with your heart  
Never fall apart  
Don't you know that my love will always be true  
Baby, can't you see  
What you do to me  
No one ever touched me the way that you do

Touch me with your heart  
Never fall apart  
Don't you know that my love will always be true  
Baby, can't you see  
What you do to me  
No one ever touched me the way that you do

Maybe, baby  
This time around you'll see

My burning passion  
That's hidden inside of me

Chorus (2x)
