Sweet, sweetie)

(Sweet, sweetie)

(Sweet, sweetie)

Don't call me sweetie

'Cause I'm bitter

Bitter 'bout the way you're treatin' me

You leave me all alone

Night after night

Then you think

A little sweettalk

Makes everything right

I used to be your one and only

Now I'm only someone you ignore

So get your lips away from me

I'm bitter as I can be

And don't call me sweetie anymore

(You know you got it all wrong, now)

(I call you sweetie 'cause I love you)

(You don't believe me but it's true)

(The reason I left you alone)

(You made me mad one night)

(And I give you the sweettalk, honey)

(Just to make things right)

You know that I used to be

Your one and only

Now I'm only someone you ignore

So get your lips away from me

I'm as bitter as I can be

And don't call me sweetie anymore

(Sweet, sweetie)

(Sweet, sweetie)

(Sweet, sweetie)

No don't call me sweetie anymore
