It was just another regulation  
Saturday night at the Gas Station  
We were hangin' out  
And the lights were shinin' down  
They were better when the night went on

Somebody said there was a party downtown  
So we hopped in a car and left very quick  
We got there and it was really goin' on, I know

Lights and colors flashin' all around  
And I found someone there that I really liked  
She said, "hey" I said, "Hello"  
And then when seeped up into the mellow of another  
pretty evening

We got back almost three years later  
And I can't really remember much at all

Please I said why don't you call  
She said, "My name is Norma McCall"  
Call me Norma McCall  
Call me Norma McCall  
Won't you Call me Norma McCall  
So I can remember what we were doing that night

Call me Norma McCall  
Won't you Call me Norma McCall  
Won't you Call me Norma McCall  
So I can remember what we were doing that felt so  
right

Wish I had you here right now so I could remember  
everything again

Call me Norma McCall, won't you Call me Norma McCall  
So I can remember what we were doing that night that  
felt so right  
Won't you Call me Norma McCall  
Call me Norma McCall
