WHEN YOU GO DOWN

Why can't I be in every window,
everywhere in the world.
Looking out at a billion faces,
the next one better than this.

I will always be trapped inside this mystery,
but I will always be the one who sticks around
. . .when you go down.

Why can't I be in every window
everywhere in the world ?
Always bathed in a sea of sunshine,

everyday of the year.

I could never be trapped inside your tragedy,
but I will always be the one who sticks around
. . .when you go down.

See through me, I'm in your window.
Happily I see it all.
Open me, I'm in the arms of a woman who knows,
how to give up and let go.
I will always be the one who sticks around
. . . when you go down.
