We crawled out of the ocean for the evolution, to  
conduct the grand finale.  
She wants so badly to return the favor, to bring you  
back home.  
Everything's breaking, the cycle is void. so we fed on  
the bones of the weak with a rabid bite.  
We fucked on in the glow of the bomb.  
Everyone's racing, there's blood on the streets.  
You bred the new pets, they all caught the plague.  
Just human error, lean in and weep.  
Don't weep.  
You made this.  
Now bask in it.  
Ringing it in.  
Brand new.  
Ice age.  
And I hope you can swim.  
If we don't make it out alive, what comes after oblivion?  
We'll all take turns wearing the ring, the spotlights will  
blackout the holes in the sheet.  
We stretch on for miles and just like a scar along the  
face of the earth,  
It's too bad you won't be here forever I know you just  
wanted to.
