Somewhere between the frozen layers
Sleeps a fragile woman
Waiting for her husband
To remove the shards of glass

The sun betrays the light that it once shed
And daughter cuts the hair

I feel the movement of ghosts in the room
Glad to watch your child play
Glad to watch your child play
She keeps a photograph locked in her mouth

The smell of turpentine
Drips from the walls
Forgive and forget
Relive and regret

You're not alone
I've seen the dead arise
The ice will someday thaw
And she will wait no more

You're not alone
I've seen the dead arise
The ice will someday thaw
And she will wait no more

The ice will someday thaw
And she will wait no more
You're not alone

The ice will someday thaw
And she will wait no more
You're not alone

I've seen the dead arise
I've seen the dead arise
I've seen the dead arise

I feel the movement of ghosts in the room
Glad to watch your child play

Glad to watch your child play
She keeps a photograph locked in her mouth

The smell of turpentine
Drips from the walls
Forgive, forget
Relive, regret
