I still dream of paradise
I still wake up crying
I've seen the sun, of tomorrow rise
I felt like I was dying
I still dream of forever
I still see me wave
From the deepest pits of never
Another soul to save

I still long for the sun to rise
I still fear the dark
I've seen the signs of our last goodbyes
Another submerging ark
In bitterness I've tasted my tears
A burnt out soul of emptiness
I loneliness I've touched my fears
closed my eyes for hopelessness

Sail the waves of lunacy
Bring my presence out of never
The forever waves of my time to be
I set my sails for forever
Sail the waves of silent sea
In empty winds under rainbow fire
The forever winds won't let me be
Wake me up from my forever empire

I am my paradise
Through my damnation you'll fall
I am the wise
In my eternity I am all
You ask of me my sanity
Divided you shall fall
Your soul shall burn most certainly
Below me you will crawl

I am my own eternity
My creations will not fall
Dream or not it's real to me
Your becoming I prevail
From my fists burns my fire
The emperor of my empire

Butt where will be a better day
Even I am doomed to fade away

Sail the waves of lunacy
Bring my presence out of never
The forever waves of my time to be
I set my sails for forever
Sail the waves of silent sea
In empty winds under rainbow fire
The forever winds has left me
I am fading through the stars, my desire
