The Egg - Wall lyrics

Run around, run around
Never looking, never look, I fall
Stepping on, stepping on
Left in night, aero tights and awe

Let me go, let me know
Well, it's easy to show
That you wanted to go
But you won't let me know
And I wanted to go
But I wanted to let you know
Let me go, let me know
Well it's easy to show
That you didn't even know
That I wanted to go
But you know that I wanted
To let you go your way

Watching out, looking out
Always take me, always take me out
Running through, afternoon
Far away, I fall around with you

Let me go, let me know
Well, it's easy to show
That you wanted to go
But you won't let me know
And I wanted to go
But I wanted to let you know
Let me go, let me know
Well it's easy to show
That you didn't even know
That I wanted to go
But you know that I wanted
To let you go (Repeat until fade)
