"Just Like We Do"

Dear, did you know
That people love each other
Just like we do
Just like they do

Dear, did you know
You're all I ask for
So hold on to me
Hold on with me here

And there are things
That follow this quietly to the pass
We've seen all those faces
We won't go looking for trouble

The rain, it tumbled down
Through the cracks in the sky
Which made your hands grow
Watch your hands grow

And we still see through their
Plain shifted laughs
We'll hold the hands of sinners
And then we will pass
