I, I, lost, lost all respect, admiration  
And trust, trust, I was just, just following my heart  
And he tells me he's unfaithful  
And now I need for you to tell me it's alright

Please, oh, please don't do this to me, baby  
Please, oh, please don't get over me

I fall, fall, you were there, there to expose it  
What a smooth plan  
I should've seen, seen through your disguise, surprise  
You've found a replacement

And he tells me he's faithful  
But I know better now  
So please just tell me it's alright

Please, oh, please don't do this to me, baby  
Please, oh, please don't get over me

I'm sorry, you've got so much  
Against you coming into this  
I appreciate your patience  
I know that you've been hurt too  
Oh, we're black and blue

But baby, let's make this work out  
I'll always be around  
I wanna be with you forever

Please, oh, please don't do this to me, baby  
Please, oh, please don't get over me, oh baby  
Please, oh, please don't do this to me, baby  
Please, oh, please don't get over me
