He's gone and there's nothing you could do  
But I'm sure that halo keepers have a smile for you  
And they've got a smile for you

No matter what they try to tell you  
Preaching what you can and can't do  
Let them go, let them save their own

Judas, here's a smile for you  
Nothing they can sing about  
Can match those things you put you through  
And Judas, here's a smile for you

I know that it reminds you every day  
And if he were standing next to you  
He'd breathe in and say  
You know he'd say, yeah

No matter what they try to tell you  
Preaching what you can and can't do  
Let them go, let them save their own

Judas, here's a smile for you  
Nothing they can sing about  
Can match those things you put you through  
And Judas, here's a smile for you

Judas, here's a smile for you  
Nothing they can sing about  
Can match those things you put you through  
And Judas, here's a smile for you
