if u could just close your eyes i'd help you pull the
trigger
i have to see if u and i were made for something
bigger
so take a breath and squeeze away lets find out what
your made of
if i should fall into your arms then by your hand will
death be done

when darkness comes a smile grows on my face no
one is here and nothing is wrong
the machines that have built my walls have
disinegrated
slowly disinegrated

if u could just close your eyes i'd help you pull the
trigger
i have to see if u and i were made for something
bigger
so take a breath and squeeze away lets find out what
your made of
if i should fall into your arms then by your hand will
death be done

im leaving tonight
im craving those black skies

when morning comes the sun shines on my face
i can feel something is wrong
the machines that pumps my blood disinegrated
slowly disinegrated

if u could just close your eyes i'd help you pull the
trigger
i have to see if u and i were made for something
bigger
so take a breath and squeeze away lets find out what
your made of
if i should fall into your arms then by your hand will
death be done

im leaving tonight

im craving those black skies X2
