Bleed the dream shattered memories lyrics  
So how long do you really think  
I'd let you keep me here for I'd run away  
And how long would you sit around  
And watch me waste my tears  
Before you walk away, I love your average face

And there's nothing left  
But shattered memories  
Of what we left behind  
And the greatest will forever follow me  
Forever left behind

There's no time to be ridiculous  
And piss into the wind, unless you wanted to  
There's no words that could ever  
Make the sorrows disappear  
Because I know its through  
And I love your average face

And there's nothing left  
But shattered memories  
Of what we left behind  
And the greatest will forever follow me  
Forever left behind

Forever left behind  
Forever left behind and ever

And there's nothing left  
But shattered memories  
Of what we left behind  
And the greatest will forever follow me  
Forever left behind
