I've broken all my bones
Shattered both my knees
I've bruised every artery there is to bleed
I've sweat from the inside
Fevered on the out
I let my heart devour itself
With teeth left by con artists
Trying to pose as lovers
There's no safe step in a mine field
You just run like hell
Praying you don't get...

..Crushed by a landslide
It's weight that you don't want to feel
Like love it makes these scars
And sometimes they don't ever heal

The luckiest is one who makes it out alive
With cuts on the skin but intact on the inside
And it's the cyanide kisses that get a villain excited
Like the site of blood to a murder
Cause vampires wont kill for the money
They don't dive headfirst into your skin
Unless there's something inside
That just might be worth get..

..Crushed by a landslide
It's weight that you don't want to feel
Like love it makes these scars
And sometimes they don't want to heal

So get out of my way, i'll push you aside
I want to be the first one in line to get..

..Crushed by a landslide
It's weight that you don't want to feel
Like love it makes these scars
And sometimes they don't want to heal
(get crushed by a landslide)
And maybe you don't want to heal
(like love it makes these scars)
And sometimes..

The luckiest is one who makes it out alive
With cuts on the skin but a victory inside
