Spending my time working my life away
I look at the clock, but everyday's the same day
I don't believe I only get one chance
Because I've failed so many times before

This time I will not bend
This time I won't give in

I need to break from this sinking town
Every time I stop, the leeches pull me in
The road in front has many speed bumps
But the path behind me is going straight fucking down
I'm so tired... frustrated
No one else can do this, it's up to me
I need to take a good look at myself
And figure out who the guy staring back at me is

This time I will not bend
This time I won't give in

Sick of this place, sick of this town
Tired of my face and tired of this frown
Tired of standing, tired of falling
Tired of getting up and tired of crawling

This time I will not bend
This time I won't give in
