"Among The Shadows Of Erebus"

As this diminishing shadow of sorrow and loath,
Paralyzes all with enchanting flow,
Descends upon the icy coasts,
Darkness shall swallow the land.

Towering mountains rise from ash...

The sacred wrath of this forgotten domain,
Its storming might seems arcane.
Under the fist of their ghastly reign,
Our oath Blazing, Hidden light unveiled.

The sacred wrath of this forgotten domain,
Its storming might seems arcane.
Under the fist of their ghastly reign,

Our oath Blazing, Hidden light unveiled.

In the midst of departure, Night sky glimmers.
Wisdom of the Kharon, Enlightens our soul.
An inevitable conclusion, eventually you'll see,
You are none but among them, among the shadows...

You are none but among them, among the shadows...

As this diminishing shadow of sorrow and loath,
Paralyzes all with enchanting flow,
Descends upon the icy coasts,
Darkness shall swallow the land.
