I want to suffer, I need to feel the pain and discontent  
Just to see how frail you really are  
So what do you expect? Simple respect?  
I want to know why the fuck you're really here  
Why are you here?

Empty, No I'll never be  
Ten years undying disease  
Through frustration and loneliness I have built what  
you'll never achieve  
No fear or failure  
You'll never taste what I've grown to know  
I'll always fight for my existence  
Eternally chased by the wolves

I'm still not impressed by the fucking things you do  
I'll end you one at a time  
You'll never mean shit to me  
You're just spoon fed arrogance  
Erase you from my mind  
I'm not content to let you see me burn and fail  
You'll have no satisfaction  
So step aside, son, before you get erased  
Still cold the blood that courses through my veins

I've seen enough of you, so walk away  
I've heard enough of you, fucking go away
