Prepare your weapons to destroy their culture  
Impair the process of their beating hearts  
Avoid humanities glamour

We are the damned, worshipping the notion of an  
empty sky  
We are the starving millions, begging for immunity  
from this disease  
We are the damned  
We are the starving millions  
We will impair their process, we will destroy their  
culture

Don't believe everything you see  
Question authority and everything you read  
And don't be content with their standards  
Tear down the statue of progress, piece by piece  
And we'll stomp out the weak  
Stifle the fortunate of society  
Press their eyes into the back of their skulls  
Make them suffer, make them bleed

[Solo]

Silence their voices  
Prove them wrong and rip out their hearts  
Never forget what you stand for  
Always fight for who you are

Do you regret what you're feeling?  
Haunted by the sorrows that plague your mind  
I know how these walls can just cave in and what it  
takes to breathe just to stay alive

We are the damned,  
We are the starving millions,  
We will impair their process, we will destroy their  
culture

We crawl through life just to rot  
Try to impress and be something that we are not  
Feed us obsession, force it into our mouths

Reverse the role, leave them gagged and bound

And we'll stomp out the weak  
Stifle the fortunate of society  
Press their eyes into the back of their skulls  
Make them suffer, make them bleed

[Solo 2]

Silence their voices  
Prove them wrong and rip out their hearts  
Never forget what you stand for  
Always fight for who you are

Do you regret what you're feeling?  
Haunted by the sorrows that plague your mind  
I know how these walls can just cave in and what it  
takes to breathe just to stay alive
