Deceiver, your left with nothing but neglect  
I want the sun to burn out like the beating heart left in  
your chest  
Disgust, do you ever feel that you're betrayed?  
Or are you just pathetic like the empty souls you pissed  
away?

Is this really what you wanted from us?  
Something real, something flesh and blood  
Humanity is a wasteland of shallow traitors  
You'll soon be one of them, you're one of them  
Another traitor just like them  
Salvation, give back the years I left behind for  
deception  
We were the quick fix, you needed to make yourself  
numb  
From all of your insecurities and worthlessness

Is this really what you wanted?  
Something pure, something skin and bone  
The human race, a cheap imitation that you have  
bought and sold  
I've wasted all these years for you, from this shelter,  
from myself  
I have nothing left to prove, just choke on emptiness

Fifteen minutes of fame has come to a pass  
And now I've got 1 million reasons to make this fucking  
last  
I swear to God I'll wreck your world  
So I swear to God I'll destroy your world

[Solo]

Is this really what you wanted?  
Something pure, something skin and bone  
The human race, a cheap imitation that you have  
bought and sold  
I've wasted all these years for you, from this shelter,  
from myself  
I have nothing left to prove, just choke on emptiness

[Solo]

I'll fucking ruin your life  
So sing to me like you mean this  
I'll fucking ruin your life  
So you better scream like you feel this
