She's pulling out her eyelashes, from pain she bares
Not far from home I'm all alone, this hole is way too
deep
And I've left behind my happy life, and I'm still asking
how I died

Lay down (lay me down)
Pray now
Lay down (lay me down)
Pray now

And I'm walking through the cold of night so I can see
your face
At your window I will stand, your smell I will embrace
My eyes in your's and your's in mine and now I know
just how I died

Lay down (lay me down)
Pray now
Lay down (lay me down)
Pray now

Oh! (x15)

As fire falls I've never been in love before, I've never
had this before
